EDUCATION

Vellore Institute of Technology Bhopal, India

Master of Computer Application; GPA: 8.06 June 2022 - August 2024

Barasat Govt. College Kolkata, India

Bachelor of Science (HONORS) - Mathematics, GPA: 8.70 June 2018 - August 2021

SKILLS SUMMARY

Languages: Python, SQL, JAVA

© Frameworks: – Pandas, Numpy, Scikit-Leam, Matplotlib

© Tools: Power BI, Excel, PowerPoint, Tableau, MySQL, SQLite

© Platforms: PyCharm, Jupyter Notebook, Visual Studio Code, IntelliJ IDEA

© Soft Skills: Rapport Building, Strong Stakeholder management, People Management, Excellent communication

WORK EXPERIENCE

BUSINESS ANALYST INTERN | WS | LINK January 24-March 24

Streamlined data collection and reporting procedures, reducing processing time by 20% enhancing efficiency.
Implemented process improvements and automation solutions, resulting in 15% increase in productivity.

Collaborated with 3+ cross functional teams to gather requirements, define project scopes, and ensure business objectives, fostering effective teamwork and project success

Produced 16+ comprehensive reports and presentations summarizing findings and recommendations, facilitating communication with stakeholders and driving actionable outcomes.

Conducted in-depth market research and analysis, resulting in the identification of 10+ key trends and strategic decision-making processes

PROJECTS

'Student Performance Prediction | LINK December 23- February 2024

Streamed @ 98% accuracy rate in forecasting student academic performance by developing and deploying model.

Managed data integrity by handling missing values and encoding categorical variables, enhancing quality.
Conducted experiments with both classification and regression algorithms to identify the most suitable.
Identified and recommended key factors influencing academic performance through thorough analysis.

Credit Card Default Detection | LINK September 23- October 2023

Developed and fine-tuned a logistic regression-based machine learning model achieving an 87% accuracy in credit card fraud.

© Minimized false positives by 16% through rigorous feature engineering and hyperparameter tuning process

> Implemented under-sampling and ensemble techniques to address class imbalance, leading to 15% improvement.
Successfully mitigated fraudulent transactions while optimizing model efficiency by 23% and accuracy by 10%.

Heart Disease Prediction | LINK July 23- August 2023

Orchestrated the development of a Logit model to predict heart disease, achieving an impressive accuracy surpassing industry benchmarks.

> Spearheaded the implementation of HIPAA-compliant data encryption to protect all sensitive patient data.
Data breach incidents by 40% and ensuring patient privacy and security, leading to a 48% increase in trust.

> Demonstrated commitment to ethical data practices by ensuring transparency and responsible use of data.
Enhanced patient care outcomes by 20% through accurate prediction of heart disease positively impacting patient health.

CERTIFICATES

Programming in Python (Meta) | CERTIFICATE March 2023

Mastered fundamental Python syntax, proficiently utilizing control flow, loops, functions, and data structures.

Acquired expertise in procedural programming patterns and associating logical concepts, enhancing problem-solving skills.
Introduction to Data Engineering | CERTIFICATE March 2023

Learned the modern data ecosystem, including the ETL process and big data basics

> Mastered data gathering, identification, and cleaning for analysis preparation.

Foundations of Data Data, Everywhere(Google) | CERTIFICATE March 2023

Developed a comprehensive understanding of the data lifecycle and various stages involved in the process.

Introduced to diverse applications designed to streamline and optimize the data engineering and analysis workflow.
